\$13⁹⁵*

● Papers are fastened together by simple pressure of hand on lever of Paper Welder. One press of the handle welds papers together. The weld is as strong as the strength of the paper itself.

● Another fine feature is that a simple pressure of thumb nail or any smooth object on the weld unlocks papers without mutilation.

● An ideal gift with name engraved on handle or base.

PAPER WELDER***

***is Quicker
Faster
Neater***

- A definite saving in money because there are no metallic fasteners to buy. It costs nothing to push down the handle.

The Paper Welder is precision built, neat, smart appearing, polished chrome plate, and should last indefinitely.

With letters carrying enclosures, the Welder is a neat method of fastening important inserts, with assurance that they will reach the recipient intact.

Will weld up to six sheets (16#) some cases more.

Paper Welder, Inc.

MEDINA. NEW YORK

Mr. Theodor H. Nelson,
Systems Cons.
Box 1546
Poughkeepsie, N. Y. 12603

October 8, 1964

Dear Mr. Nelson:

In reply to your inquiry through THE OFFICE, we are enclosing a descriptive brochure of our Paper Welder as well as sample papers showing the method of fastening.

This unit is precision built throughout - attractively designed - smooth, silent and efficient in operation.

The price is \$ 13.95 postpaid. In quantities we have a schedule of discounts.

Thank you for your interest.

Sincerely yours,

PAPER WELDER, INC.
